

our youth program

Danspace is the only Bay Area school inspired by the Corvino approach, which teaches a clean, classical technique free of mannerism, with great emphasis on musicality, artistry, purity of line, as well as balance and coordination which ultimately lead to more flexibility and strength.

Ballet & Pointe

Ballet classes provide a solid foundation for learning classical technique within a supportive environment. Through careful training of the body we are focused on dynamic alignment, flexibility, and strength.

Composition

Composition offers an introduction to dance making focused on using the elements of time, space, and energy to create and share movement studies.

Classes encourage movement invention and offer an introduction to collaboration as they learn how to make dances together in duets and small groups.
